

VENTURA MEDICAL TECHNOLOGIES IN THE 15TH CWIG MEETING CHEST WALL INT.

The **15th CWIG Meeting** was held on June 12th-14th, 2014 at the Aarhus University Hospital, Skejby, Aarhus, Denmark. The Meeting was organized by Dr. Hans Pilegaard, the President of CWIG, and congenital chest wall deformities were discussed and debated on the basis of diagnosis and treatment , by the participation of 65 surgeons from around the world.

Dr. Carlos Bardaji made a Conference about External Traction Technique – **Pectus up**. The discussant for this speech was Dr. Pilegaard.

The Executive Committee Meeting of CWIG was also held in Aarhus, during the 15th CWIG Meeting, and it was announced that the CWIG will become a Society in the near future, and the next CWIG Meeting will be held in Hong Kong in 2015. All the participants were invited for this appointment.
